

(1)

EU-Type Examination Certificate

(2) Equipment or Protective Systems Intended for use in Potentially Explosive Atmospheres

Directive 2014/34/EU

(3) EU – Type Examination Certificate Number: **IEP 18 ATEX 0581X**

(4) Product: **ST-23 Type Safetmade Atex Torch**

(5) Firm Name: **SAFETMADE Deniz İnş. Yangın Malz. Mak. Kim. Tekstil San. Tic. Ltd. Şti.**

(6) Firm Address: **5748/6 Sokak No:10 Bornova / İZMİR – TURKEY**

(7) This equipment or protective system and any of acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

(8) The IEP Uluslararası Enerji Petrol Gözetim, Sertifikasyon ve Teknik Hizmetler Organizasyonu Tic. Ltd. Sti., notified body number 2284 in accordance with Article 17 of the Directive 2014/34/EU of European Parliament and of the Council, dated 26 February 2014, certifies that this product has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of products intended for use in potentially explosive atmospheres, given in Annex II to the Directive. The examination and test results are recorded in confidential Report Nr: IEP.Rp.Ex.10-1245 date 12.04.2018

(9) Compliance with Essential Health and safety requirements has been assured by compliance with ;

EN 60079-0 : 2013 , EN 60079-7 : 2015 , EN 60079-11 : 2012 , EN 60079-31 : 2014

(10) If the sign “ X “ is placed after the certificate number , it indicates that the equipment or protective system is subject to special conditions for safe use specified in the schedule to this certificate.

(11) This EU-Type Examination Certificate relates only to the design and construction of the specified product in accordance to the directive 2014/34/EU. Further requirements of the directive apply to the manufacturing process and supply of this product. These are not covered by this certificate.

(12) The marking of the equipment or protective system shall include the following:

**II 2G Ex eb ib IIB T4 Gb
II 2D Ex tb IIIC T 95 ° C Db , IP 67**

(13) Schedule

(14) Certificate Nr: IEP 18 ATEX 0581X

(15) Description of Equipment:

The torch type ST-23 is electrical device. Torch type ST-23 led are working with battery. The outer casing is made of antistatic plastic and V₀ Polyamide. Limiting resistor in the circuit board power is available. The outer casing on the lens locking system.

Torch light use with alkaline batteries according to the EN 60079-0. The torch type ST-23 shall not be opened in hazardous areas. The torch type ST-23 battery will be change only outside hazardous area. The torch type ST-23 has been evaluated in the contents of IP 67. The torch led use as Zone 1, Zone 2 and Zone 21, Zone 22 that be used danger area determined in the EN 60079-10-1 and EN 60079-10-2 standard.

Technical Parameters:

| | |
|---|-----------------------|
| Voltage input / Output and Min. (DC) | 3,2 V / 3 V and 2,2 V |
| Current input / Output | 500 mA / 320 mA |
| Inductance L ₀ / L _i | 2,2 mH / 2 mH |
| Power P ₀ / P _i | 1,96 W / 0,96 W |
| Capacitance C ₀ / C _i | 0,100nF / 0,100nF |
| Ambient temperature (°C) | (- 20 ~ + 55) °C |

(16) Special conditions for safe use : The installation and the operation of the ST-23 Type Torch have to confirm to the relevant national regulations.

(17) Essential Health and Safety Requirements :

17.1 Are included in standards , which are mentioned in clause (9) of this certificate. The products was approved in accordance with above mentioned standards and manufacturer's instruction.

17.2 At the installation and the operation of the ST-23 Type Torch have to be observed manufacturer's user manual 1 page and dated 01.11.2017

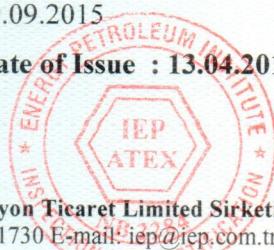

(18) Drawings:

**ST-23**

ATEX approved torch is for safe use in potentially explosive atmospheres such as petrochemical and mining industries. The main body of the torch is made of robust and high strength thermoplastic resin. Long lasting, reliable and high efficient LEDs are the light source of Safetmade ex-proof torch. Its circuit is totally enclosed and a magnetic switch is used in the system.

(ENGLISH)

ATEX SAFETORCH ST-23

Exposure to physical shocks and tormenting the torch can lead to various disorders. Manufacturer's warranty does not cover the damage caused by strong physical effects. The damaged products should be repaired before usage.

Inner parts can be damaged if the product will be exposed to sunlight for a long period of time.

Do not open torch in hazardous areas. Do not remove or modify the covers of this unit, this entails the termination of warranty. The unit must be kept clean. The unit must not be exposed to foreign substances, such as dust or various liquids.

Do not use the unit for other purposes. Do not place / store the device near heaters or other heat sources. Follow the warnings and instructions on the device.

If you do not use the unit for a long time, remove the battery from the device and store it in a cool dry place. It is recommended to use the torch with two 1.5V LR20 D batteries. It is recommended to use batteries with same brand. The use of different brands of batteries

in one device entails the termination of the warranty. In this case, the manufacturer is not responsible for any problems that may arise.

Do not use rechargeable batteries. Make sure that the unit (medium LED light torch) is turned off during assembly.

To avoid the overheating, do not use the torch under conditions exceeding the maximum recommended ambient temperature of 95 °C.

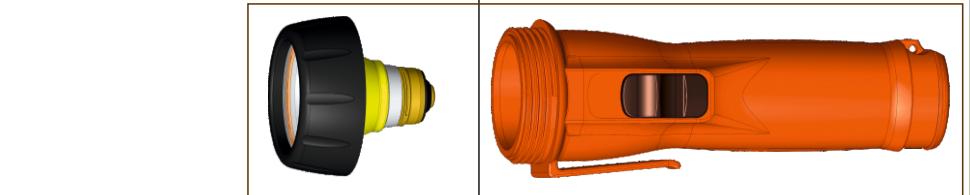

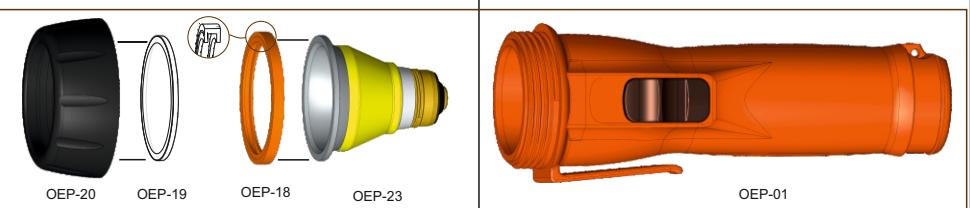

Do not torment the unit.

Do not make any mechanical or electrical modifications on the unit.

The company does not warranty the conformity of the modified devices to regulatory requirements.

Disposal of the device must be in accordance with all national and environmental regulations. In case of any problems with the unit, for spare parts, please contact the manufacturer.

ATEX SAFETORCH ST-23

Ürüne gelen fiziksel darbeler veya ürünün aşırı sarsıntıya maruz kalması zarar görmesine neden olabilir. Fiziksel darbelerden dolayı oluşan hasarlar ürünü garanti kapsamı dışında bırakır. Hasar gören ürünler kullanılmadan önce mutlaka tamir edilmelidir. Uzun süre güneş ışığı altında bırakmanız iç aksamın zarar görmesine sebebiyet verebilir. Ürünü Patlama oluşabilecek alanlarda açmayın. Bu cihazın kaplamalarını sökmeyiniz veya modifiye etmeyiniz, bu durum garantiyi geçersiz kılar. Cihaz temiz tutulmalıdır. Toz, çeşitli sıvılar gibi yabancı maddelere maruz bırakılmamalıdır. Cihazı amacı dışında kullanmayın. Cihaz asla radyatör veya bir ısı kaynağıınız yakınına veya üstüne konulmamalıdır. Cihazda belirtilmiş ikaz ve talimatlara uyunuz. Bu cihazı uzun süre kullanmadığınız takdirde pilleri çıkartınız. Pilleri kuru ve soğuk yerde saklayınız. Ürünün, 1,5V LR20 D tipi 2 adet pil ile kullanımı tavsiye edilir. Sadece tek marka pil kullanılmamalıdır, farklı marka piller kılınmasında ürün garanti kapsamı dışına çıkar, üretici oluşabilecek problemlerden sorumlu değildir. Şarj edilebilir pil kullanılmamalıdır. Orta fener LED modülünün montajı sırasında fenerin kapalı olduğundan emin olunuz. Cihazın aşırı ısınmasını engellemek için, önerilen en yüksek ortam sıcaklığı olan T95 °C'yi aşan ortamlarda çalışmamayınız. Cihazı çok fazla sarsmayın. Ekipmanda herhangi bir mekanik veya elektriksel modifikasyon yapmayıza. Firma modifiye edilmiş bir ekipmanın regulasyon uyumluluğuna garanti vermez. Bu ürünün en son imhası, tüm ulusal yasalara ve düzenlemelere uygun olarak gerçekleştirilmelidir. Ürün ile ilgili herhangi bir sorun olması durumunda, yedek parça için üretici firma ile irtibata geçiniz.

ATEX SAFETORCH ST-23

Устройство может получать повреждения от сильных ударов или тряски. Гарантия не распространяется на механические повреждения (царапины, трещины, следы падения, следы влаги, следы постороннего вмешательства) Поврежденное устройство должно быть обязательно отремонтировано перед использованием. Внутренние части устройства могут повредиться вследствие воздействия прямых солнечных лучей в течении длительного времени. Устройство не вскрывать во взрывоопасной среде. Запрещается самостоятельно снимать покрытия или модифицировать устройство, это влечет за собой прекращение действия гарантии. Устройство должно содержаться в чистоте. Устройство не должно подвергаться воздействию посторонних веществ, такие как пыль или различные жидкости. Не использовать устройство в других целях. Не ставить/хранить устройство рядом с обогревателями или другими источниками тепла. Следовать указаниям и инструкциям, указанным на устройстве. Если устройство не используется в течении длительного времени, извлеките батарею из устройства и храните её в прохладном сухом месте. Устройство рекомендуется использовать с двумя батареями типа 1,5V LR20 D. Рекомендуется использовать батареи только одной марки. Использование различных марок батареи в одном устройстве влечет за собой прекращение действия гарантии. Производитель не несет ответственности за возможные проблемы. Не использовать аккумуляторные батареи. Убедитесь, что устройство (средний светодиодный LED фонарь) выключено во время монтажа. Во избежание перегрева устройства не используйте устройство в условиях, превышающих максимальную рекомендуемую температуру окружающей среды 95 °C. Запрещается трясти устройство. Не вносить в устройство никаких механических или электрических изменений. Компания не гарантирует, соответствие модифицированных устройств к нормативным требованиям. Утилизация устройства должна осуществляться в соответствии со всеми национальными нормами и правилами природоохраны. В случае возникновения каких либо проблем с устройством, за запасными частями следует обращаться к производителю.
